A1. ISSUANCE AND APPLICABILITY.

a. These operations specifications are issued to SABENA TECHNICS DNR a GACAR Part 145 repair station, certificate number, AMO-417F. The Repair Station Certificate holder shall conduct operations in accordance with GACAR Part 145 and these operations specifications at the location listed below.

The certificate holder's address:

**Fixed Location:**
Bois de Ponthual, Aéroport
de Dinard-Pleurtuit-St Malo,
35800 SAINT LUNAIRE
France

**Mailing Address:**
Bois de Ponthual, Aéroport,
de Dinard-Pleurtuit-St Malo,
35800 SAINT LUNAIRE
France

b. These operations specifications are issued as part of this Repair Station Certificate, and are in effect as of the date signed by the President or his representative. This certificate and operations specifications shall remain in effect until the expiration date, surrendered by the operator, or terminated by the President, whichever comes first.

d. **Limitations:** Unless otherwise permitted under manual revision procedures approved by the President, all revisions to the accepted content of these manuals must be accepted by the President prior to its promulgation and use.

e. **Emergency Revisions.** For safety reasons, a certificate holder may find it necessary to immediately revise accepted material in the Repair Station Manual before there is an opportunity to coordinate the revision with the PMI. For example, a certificate holder may become aware of a deficiency after business hours, on a weekend, or on a holiday. When emergency revisions to material are made, the certificate holder must notify the PMI of the revision at the earliest practical opportunity (preferably the first working day after the action).
